Audience: 13+

Genre: Adventure , Fantasy , Martial arts

Main character: Victor .

Everything starts in the playground next to the small house . Two kids are talking together... Victor and Ragnar . Victor's family was average but Ragnar's family was poor but they all were happy . Because Ragnar was poor , that's why he always get bullied by his peers and if Victor sees it , he stands for his friend . Ragnar's mother always worked hard for his child because his father left them before Ragnar was born . His family was muslim . Victor and Ragnar had only one dream and They want to be friends forever . One day Ragnar's mother taught him Surah Al-Fatiha . Everything was good until they will be age of 17 . It was just a normal day until cyborgs came and attacked all the houses to take all of the teenagers . In this time , Victor , Ragnar and Ragnar's mother were at the same house and they all were scared . Victor hides in the closet but Ragnar can't fit here as closet wasn't big enough to fit 2 person and Ragnar didn't have time to hide . Cyborgs breaks the door and comes to house and sees Ragnar , when they wanted to take him , his mother shows and protects his son from them . They shoot Ragnar's mother and take him with themselves . Victor was very scared and can't move for 10 minutes after they left . He looked around and no teenager was left there except for him . He cried for loosing his best friend and comes to his home . His parents were crying and thought they lost Victor but when Victor shows up , they were stunned and hugged him . Victor told what happened and his parents felt bad for him . After some days , he heard about " Blue Morpho " butterfly that can revive one very close person . This butterfly was in blue dimension and only 1 person can use this for 1 time . A lot of people trying to get this butterfly since 50 years and no one get this yet because The person who tries to get this butterfly become cursed , and there have to be left only 1 cursed that butterfly will be available to use . Since years , a lot of people kill each other , fight and die but when low cursed people left , always there will be new cursed people that want to get butterfly . Victor entered blue dimension to get the butterfly and revive his best friend as he thought that Ragnar is died . In this time , Ragnar was part of laboratory experiments in Darius's laboratory . Darius also was one of the cursed and in this laboratory , he was kidnapping teenagers and making cyborgs from them to fight for him . Why teenagers ? Because teenagers don't have too much memories as older person to wipe all of the memories, not as weak as a kid to make stronger and smart enough for battles and strategy . Since Ragnar got kidnapped , his every dreams were nightmares and everything bad he images like monsters or ghosts becomes real . It doesn't sound scary but there's nothing scarier when monster is coming to you but you can't talk and move , everything you have to do is to watch how it will eat you and see these nightmares nonstop . In Blue dimension , only in some people had innate ability and they got different time , for example teleporting or manipulating . When Victor entered Blue dimension , the first thing he saw was a person standing right next to him and his name was Draco .

Victor came to Draco and asked : -Hello , what's your name ? Draco was introvert person and he replies slowly with low voice:

-My name is Draco .

-Nice to meet you Draco! My name is Victor . Do you know where is the "Blue Morpho" butterfly?

-Yeah , It's in the "Heroes journey" , not far from here . I can take you to there if you want .

-Oh sure! It would help me a lot .

They started to move to Heroes journey and talking on the way .

-Hey Victor why do you need that butterfly ? Is it that important to you ?

-Yes... Few days ago , I lost my best friend and I heard that with this butterfly I can revive him .

-Oh , Did you know since the last 50 years , no one get this butterfly because It's harder than u think .

-Why is it so hard ?

-To be honest , I really don't know why is it but one person told me you'll become cursed if you want to get that butterfly and to get the butterfly , there have to be last only 1 cursed . Right now , there are more than a thousands cursed in this dimension .

-...

-I can help you to revive your best friend anyway there's nothing to do for me .

-Thank you so much .

They're arrived to the "Heroes journey" and find the place with Blue Morpho butterfly . To become cursed , he had to touch the butterfly and his name will appear in butterfly's wings in very small letters . Lower cursed people left , bigger letter in name in butterfly wings' . When Victor almost touched the butterfly , Draco stopped him and asked:

-Are you sure to do this ? There's no way back after being cursed . Or you'll die or you'll success and also other people may try to kill you because you're cursed .

-Yes I'm sure .

He touches butterfly and Vantablack colour big circle appears in his forehead . Only cursed people have these and cursed people can see these circles . He looked at water and saw big vantablack circle in his forehead from reflection of the water . Victor didn't expect this and asked Draco:

-Hey Draco are you seeing this circle in my forehead ?

-Uhhh no , there's no circles in your forehead .

-No look there's a circle in my forehead .

-I'm not seeing it , maybe it is only visible for cursed people ?

-I think so .

They leave the room with butterfly and had no idea to what to do . Then Victor asked:

-Where we go now ? Do you have any ideas ?

-I know where is shop and we buy paper and color pencils then I draw the map of this dimension .

-Sure good idea let's go .

They started their way to the shop and talking on the way .

-Hey Draco , Why are you helping me for no reason ? And where's your family ? Aren't they afraid because It's to late and you're not going back to home ?

-I'm helping you because I never had friends before and according to you are risking your life to revive your friend , you are loyal to friendship . My family ... My dad died in a fight against cyborgs , My mom doesn't want to see me again because I don't want to train to become Shaolin Monk anymore . I don't have anywhere to go and I want to adventure with you .

-You were training to become Shaolin Monk ?

-Yes , I never wanted to become Shaolin Monk but my father had a dream to become Shaolin Monk but he failed because he lost his 1 arm when he was young . I was smarter than my peers and I wanted to become scientist but one day I decided to become Shaolin Monk to my father make proud of me . I learned Shaolin Monk everyday nonstop since I was 11 from the person that also teach my father and now I am 18 .

-So it means that you sacrificed your dreams to make your father's dreams come true right ?

-Yes... but my father died around 1 month ago and I'm not training since he dead . That's why my mother was mad at me . But my teacher was a nice person even if he's an old age . He always motivated me and helped me every time I need his help . The last thing he told me was "Villains aren't born , They're made . Every time you see a bad person , remember that it's not him born like that , It's people make him like that" .

-Your teacher is so good person , Even if you don't go to training , he's not mad at you and helps you .

-I never disappointed my teacher , He always trusts me .

They talked all the way to the shop and heard two people talking each other:

-Cyborgs are about to attack the Ice Statues .

-How do you know about that ?

-My brother was there and he told me that .

-How did he know that ?

-He said they already destroyed Igloo and planning to go there .

After hearing that , Victor and Draco ran to the shop and bought paper and pencils . After around 15 minutes he finished drawing the map and show it to Victor:

-Victor look , right now we are at “Heroes journey” and we have to pass ocean and then “Igloo” to get to the Ice statues .

-Yes It looks like It’s cold in there we need warm clothes .

Draco had money and he bought two warm clothes and they wear it fast . After that they start to look for speedboat and found one for cheap . They quickly boarded the ship and started to move . Victor looked at the map and asked:

-Why some places are darker and some places are lighter ?

-Ocean is cyan . “The Northern Glacier” is blue and dark blue places are completely frozen . “Morningdew Village” is orange and bit darker orange places are higher sea level places . “Ancient Jungle” is green and dark green places are big forests . “The Golden Expanse” is yellow and It’s very hot place like a desert . “CyberHive Towers” is purple . “Nightshade Rock” is gray and bit darker places are high mountains . “Unknown Islands” is black . And finally , “Veindusk Place” is red and once it was part of “Morningdew Village” but there was a lot of wars and everywhere is blood and deaths , darker red part is the most dangerous places because there are lavas , poisons and other dangerous things .

-Wow that’s good . You know everywhere very good but why there is question mark in one of the islands ?

-Hmm I never visited this place before and other people call this death island because almost no one come alive from there .

With talking they arrived fast and continued their way to Ice statues . When they reach Igloo they saw destroyed houses and dead people everywhere . They knew that they have low time left and they started to move faster . When they almost reached Ice statues , they saw Cyborgs started to leave this place and without losing time , Draco ran and choked him fast . Other cyborgs also saw this and started to shot them . Draco used one cyborg to defend himself and grabbed his weapon to kill others . Victor was shocked by what’s happening and just spectated and hided next to wall . Draco killed all cyborgs

and checked if no cyborg left . All of them were died and Victor came out of his hiding place . Draco asked:

-Where were you ?

-I was stunned by your speed and strength .

-Oh that's easy I trained for this moment .

In this time Ragnar was fully become new cyborg and lost all of his memories . Ragnar with other cyborgs were planning to invade "Night castle" . Darius accepted and they start to go to Night castle with a lot of cyborgs . Ragnar was very smart and strong cyborg than most of them and Darius made him commander to them . Victor and Draco was just moving to wherever they want to find something new and they saw tech plane in the sky with very fast speed and Draco recognized it fast . He started to look for a vehicle and found one , it was bit old but very fast car . He knew how to use it and they sat . They started to move to the direction that tech plane went . They moved very long time and saw cyborgs attacking houses . Draco moved slowly to reach one of them and killed one immediately . Again he grabbed his weapon but there was a lot more cyborgs than before . One of the cyborgs was behind Victor and they shoot him . Something happen to him and Victor didn't feel pain . Somehow he summoned light strikes and everybody was shocked . It was to powerful that destroyed cyborg in one . Ragnar also was there and commended to retreat . A lot of cyborgs died while running and only some of them arrived to tech plane . Plane immediately flied right after they arrived . Victor tried to fly but he didn't manage . He send light storms to the tech plane and damaged it but they were able to retreat . Everyone who hided in their houses leaved their house and checked outside . They all thanked Victor and everyone gave him a lot of money for saving them . One girl was interested by Victor's powers and when everyone were entering their houses and Victor with Draco started to leave , she ran to Victor and asked:

-Hey Victor , how do you have such power ? Can you also teach me to do these ?

-Who are you ? Why do you want so much power ?

-My name is Beatrix and I will do whatever you say just teach me your power . I need these to defend myself from cyborgs and psychopaths . When last time cyborgs attacked our city , they killed my only sister and I was weak to protect her . Now I can take revenge for her if you teach me .

-if you're so scared , then go with us and you'll be in safe we protect you but I can't teach you my power.

-Uhm okay , what's your friend's name ?

-His name is Draco .

-Oh my name is Beatrix nice to meet you Draco .

-Nice to meet you Beatrix . We protect you but you'll also be in danger because we're attacking cyborgs and they can kill you .

-I just want to take revenge anyway there's nothing left for me to lose .

They sit to the car and started to move to the "Great wall" because cyborgs went this way . Their base was in "Skull island" but no one knew about it . When only few cyborgs entered laboratory and told that

they lose , Darius was furious and asked what happen ? They said one person called Victor had power of light and destroyed them easily . Darius called for his one of the strongest and sneaky commander – Samuel . Darius told Samuel that he has to Detect Victor’s every move and what’s he doing no matter what at all cost . Samuel was very smart and strong person and accepted it . He knew that Victor was going to the Great wall and he also go there with one small tech plane . Samuel came earlier than Victor and wanted to spectate everything he does . Victor with Draco and Beatrix arrived to the Great wall and didn’t know what to do now . Draco doesn’t know this place well so they had no idea where to go . There was one person that also cursed and they decided to ask him:

-Hey man , do you know how to go through the Great wall ? We are new in there .

-I know , I can help you but I have 1 wish .

-What do you want from us ?

-I want you guys to take me to the “Trap temple” after that .

-Deal .

The Great wall was very high and long , but there was some broken places that helped them to go through the wall . After that Draco asked:

-What’s your name ?

-My name is Stephen , What’s your name ?

-My name is Draco , he is Victor and she is Beatrix .

-Nice to meet you all .

-Nice to meet you .

-I guess it’s time for you guys to take me to the Trap temple .

-Hmm maybe you can wait for us to finish our task and we all go together ?

-How can I trust you ? You are also cursed maybe you are trying to kill me ?

-No , We don’t . We just want to save time and not go and come again . We can go together and if you help us , we can be even faster .

-What do you guys need in there ?

-We are looking for Cyborg’s base and their boss . We saw they went this way .

-Nice joke . Do you guys really think you can easily beat that much cyborgs ? Cyborgs that attacks villages and city are just weakest cyborgs that worth nothing more than this . You never saw real cyborg strength before . And their boss , his name is Darius and he’s very intelligent and powerful . He created whole cyborg laboratory and killed more than a thousands of cursed people .

-You didn’t saw my power yet , I easily destroyed these cyborgs with light strikes . They are scared of my power and almost everyone died .

-As I told you , the cyborgs you fought are made to kidnap teenagers and they can only shoot and nothing else . The real cyborgs are much powerful than you imagine .

-Then what do you prefer ?

-I think you guys need more people with more powerful people because there's no one dare to fight Darius . I prefer to go Trap temple with me and search for powerful cursed people to team up .

-Can I ask you 1 question ? Why you need to go to the Trap temple ?

-Few months ago , I lost my brother (Samuel) and he also become one of the cyborgs . I want to find him.

-Why do you think he is in Trap temple ?

-Because time flies and cyborgs starts to remember his memory , but if he's much stronger than normal kidnapper cyborgs then he'll never remember his memory . Me and my brother have nice and unforgettable memories in childhood . I am not sure that he's still alive , but he can come back after some time .

-It means if my best friend is still alive , then he is one of the cyborgs and comes back one day ?

-Not always , sometimes if Darius knows who remember his memory , he will immediately sends him to the laboratory again .

-Okay , then spend the night in somewhere else and tomorrow morning let's go to the Trap temple .

-Okay sure .

They spend the night and tomorrow morning starter to move to the Trap temple that Samuel also went . When they arrived , right next to them there was one big structure that every 2 months 200 people play 4 games to win the potion . The games were for strength , speed , reaction speed and IQ . They never played these games before and Stephen explained games and said:

-You can participate in these games because you have power . If you win , you will get random permanent superpower potion and give it to your friend .

-Nice idea but we can't wait 2 months to play these games .

-We don't have to wait , last game ended almost 2 months ago and tomorrow starts new games . If you want to play then You need to register , because a lot of people want to get potion and tomorrow It's to late for registration .

Victor registered to the games and when they go out , Draco also secretly registered because he worried about his friend . They waited for one more day and next day games started Victor said that Beatrix should wait there for him but they can't find Draco . He was secretly entering games but told no one about it . Stephen continued his way to find his lost brother and showed where's his house . Victor entered games and everyone waited to others to come . After few time , everyone who participates were here . Everyone was replaced in 20 teams of each 10 random players . The first game was "Oq terakmi , ko'k terak?" and this is teamwork game for strength . In this game , two teams will be in two sides looking each other and team's players stays next to each other and holds their hands . For example

, red team starts the game and everyone in this team says “Oq terakmi ko’k terak , bizdan sizga kim kerak?” . Blue team picks one person from red team and he will run and tries to go through two player’s holding hands from blue team . If player can go through , then red team gets 1 point . Then blue team says “Oq terakmi ko’k terak , bizdan sizga kim kerak?” , red team picks one player and same thing happen again until everyone does it 1 time . Team with more points wins the game and lost team will be eliminated . If both team has same points then it continues until one team will get 1 more point . In this game , total of 100 players will die from 10 teams and winner team wait others to finish . Victor and Draco plays in different teams and Victor didn’t know about Draco is also playing , They’ll not see each other in this round and their both team win this game . There was one player called “Connor” and he was very toxic and rude to everyone . He was smart and know how to play this game and win , he held his two teammate’s hand different that almost impossible to go through it . His team won that game because of Connor and they thanked him . Next game will be “Ninadan baland” and each team will play against their teammates . Game will be in big playground with monkey bars and random 1 person will be chosen as chaser . Mission of chaser is to catch everyone but if others will be in higher place than ground , then chaser can’t touch them but chaser can come near to one player and count to 5 not fast , if player doesn’t touch ground in 5 seconds then chaser will be able to catch him even when he’s not in the ground . This game will continue until chaser catch 8 players and if chaser can’t catch 8 player in 10 minutes , then chaser loses the game and random 1 player will chosen as chaser from left players . Chaser has high chance of winning and only 2 person from 1 team will go to the next game . Draco was chosen as a chaser in his team and he was very fast , he easily catch 8 players in 6 minutes . Victor wasn’t chosen as chaser but because of his power , he was the only player survived in his team except for chaser . Connor was runner but he pushed all of his teammates to win the game and when time ends , chaser wasn’t able to catch 8 players so chaser gets eliminated and Connor become new chaser . He had to catch only 1 player to end the game and he did it as well . Everyone ended their games and next last 2 games were planned for next day and when everyone went to go sleep , Victor saw Draco also there and ran to him and asked:

-Hey Draco what are you doing here ?

-I also decided to play this game because I worried about you , you are trying to get potion for me because you worry about me and why I shouldn’t ?

-It’s not about that , what if one of us will die or in the last game we’ll have to fight against each other ?

-What an easy choice ? You can kill me easily .

-No , I can’t kill you because you are my friend .

-Think about good , now we have to take rest I’m very tired today . Goodnight .

-Okay goodnight .

They both go to sleep and in this moment , Samuel enter camera room and talked with workers and main managers , he showed Victor and said:

-Everyone , look at him . His name is Victor and he has do die here , It’s Darius’s command !

-As you wish , he’s not going to survive the next game .

-If he leaves the games alive , then I'll kill you all .

They plan was that in the next game , everyone should aim the ball to Victor , not to his opponent and do it nonstop until Victor get's eliminated . Next day , next game was "O'rtaga tushar" . In this game , last 2 players in each team will be in the center and 2 worker in 2 sides have to shot them ball , if ball hits one player then he is eliminated and his teammate wins this game . Game will not over until 1 player left in each teams . Game started and Victor's team had to play first . He and his teammate moved to the center and 1 worker from each side started to throw ball to them . Their mission was just to dodge them and survive until teammate gets eliminated . Workers were only shooting to Victor and they didn't aim to his teammate , not even 1 time . Draco was watching this and gets mad for unfair game . One worker was next to him and he said:

-Look at that game , They're only aim 1 player and other player I doing nothing , this is not fair game !

Workers didn't answer . Victor understand that they're trying to kill him and tried to hide front of his teammate , His teammate start to be nervous and tremble . Worker was stunned where to aim because he had no chance hit Victor , then he started to look at Victor's teammate and with his eye , he tried to say "get out from the way" and shoot . That shoot didn't hit Victor , it hit his teammate because he didn't understand what worker meant . All workers , managers and Samuel looked at that worker . Victor won that game and he was happy , but his teammate gets eliminated and dies . Samuel secretly calls that worker to outside of structure and he knew he is going to die . Samuel shoot him right after he comes without saying a word and then again comes back to spectate games . Other games ended fast and Draco also easily won by his speed and reflexes . Connor was very tired and used sneaks move , when worker throw the ball , Connor pushed his teammate to the ball and wins his game . Before the last game , they have lunch and Draco comes to Victor and says:

-Thank god you're still alive , I thought you will die because they were planning to kill you but you outsmarted them .

-Yeah , they only aim the ball at me , not my teammate .

-I saw that and it was unfair , when I said this to worker next to me , he didn't answer to me .

-It's obvious , they were planning to kill me but why ?

-I don't know about that but the thing I know that the next game going to be deadly because It's the last game and for intelligence .

After that , workers invited everyone alive players to one room , the last game was "Mafia" and they all players had to sit around the table . There were 7 types of roles and they are 1 Mafia , 1 Kamikaze , 1 Don , 1 Detective , 1 Doctor , 1 Suicide and 4 Townie . Every role has different task and there are 3 sides , Townies plays for good side and can vote for 1 person , his mission is to find Mafia and Don then kick them . Doctor also plays for good side and he can vote , every night he picks 1 alive player to save life , he can pick himself only 1 time . Detective plays for good side and he can vote , every night he can pick shot someone or verify their role . Don plays for bad side and he can vote , every night he also wakes up with mafia team and picks 1 person and person that Don pick gets eliminated . Mafia plays for bad side and he also can vote , every night Don picks 1 player to eliminate and that person dies , if Don dies , mafia becomes Don . Kamikaze plays for himself and he can vote , if he get the most votes and gets

eliminated , he can pick 1 player to also gets eliminated with himself , if he gets shoot at night , player who shot him dies and he won the game , but if no one shoot him or kick him until the end of the game , then he gets eliminated and dies . Suicide also plays for himself and can vote like everyone , If players votes him for kick then he wins the game but if he gets shoot at night , he dies and also if he left in the game alive until the end but not kick , then he also gets eliminated . Workers explained rules to everyone and they randomly give everyone cards . Draco get Detective , Victor get Suicide and Connor gets Mafia . There was one worker that command to night , morning , discuss and time for vote . When everyone saw their roles . 1-night , he command to night and everyone wear their special mask . First Doctor woke up and slowly pick 1 player . Then Detective Draco woke up and picked Victor to check his role , he was suicide . Lastly Don and Mafia woke up and they discuss who to shoot , Connor recommended to kill 1 player and Don accepted it and he gets eliminated . 1-morning , worker commanded everyone to wake up and 1 worker with gun killed the player that mafia team picked , he was Townie . Draco knew that Victor is Suicide and manipulated everyone to vote Victor because he wanted to his friend won the game . Everyone voted for Victor and he gets kicked but he was Suicide so he won and go to another camera room to spectate game . 2-night , worker commanded to wear masks and Doctor thought long to pick 1 player , he saw how Draco manipulated everyone and he understand he has active role and picked him . Draco woke up and picked 1 suspected player to check role that was playing nervous , he was Don . Mafia team woke up and Connor show Don to shoot Draco because he was playing different than others , Don agreed and they pick him . 2-morning , worker command to wake up and worker said:

-This night Doctor saved 1 player from death and no one died .

Right after that Connor looks at Draco and smiles to him . Draco knew who was Don and he tell everyone that:

-Hey guys look at him , he's playing nervous and scaring from something , maybe he is Mafia or Don ? He is playing very suspected let's kick him .

Other players think a bit and they agreed to Draco's words . Everyone voted for him and Connor also had no chance except voting for Don because he can reveal himself by voting to other player . Don gets eliminated and when he showed his card , everyone surprised and they were happy . 3-night , worker commanded to wear masks and Doctor again picked Draco because he was playing smart . Draco woke up and picked 1 player to check role , he was Doctor . Connor woke up and think in his mind:

-I think he is very smart and he is doing it because he is kamikaze and he wants me to shot him but I'm not dumb , I'm just don't do anything to him .

Connor think and shoot random player . 3-morning , worker commanded to wake up and worker with the gun come next to player that Don picked and shoot him , he was Doctor . Worker said:

-6 players left , Detective , Don , Kamikaze and 3 Townie .

Everyone was just looking each other and Connor looked at 1 player and said:

-Everyone , he didn't say anything and he's just sitting quiet , maybe he's scared ? He's very suspicious .

-Maybe It's you ? You also were quiet until now and these are your first words , maybe you're also scared ?

-No , I was just looking at everyone and analysing , this is called smart playing not scaring .

Everyone discuss long time and they decided to vote to the player that Connor said . He get eliminated and he was Townie . Everyone looked at Connor with strange face . Before 4-night , commander placed gun to center of the table and said :

-Now Detective or Don can shoot by himself because Doctor died and nothing can save the player they pick , if Don or Detective try to break game rules then they will immediately shoot by other workers outside and there are cameras .

4-night , worker commanded to wear masks and Draco woke up , he decided to check one player's role and he was Townie . Connor woke up and took gun , he didn't think and shoot person that was next to him and placed gun to the table . 4-morning , worker commanded to wake up and said:

-Everyone , there are only 4 players left Draco , Mark , Connor and Jessica . Detective , Don , Kamikaze and Townie . This is the last round for discuss or everything will be end .

Draco was Detective , Mark was Kamikaze , Connor was Don and Jessica was Townie . Jessica said:

-Let's vote for Connor , he is very suspicious and if we trust him we going to lose .

Draco:

-No , he's not Don because if he would be Don then he would be very nervous and killed everyone who talked to him but we're suspecting him and still alive . Maybe it's you, Jessica ?

Connor think in his mind:

-Jessica is Detective for sure , I think she checked my role and voting for me but Draco isn't as smart as I thought .

Draco and Connor voted for Jessica , Jessica and Mark voted for Connor and It was draw . Worker commanded to wear masks and said:

-This night , Detective is forced to shoot and this night will be the last night and Don shoot first .

5th , the last night , Connor woke up and shoot Jessica . Draco woke up and in this moment Connor in his mind:

-Draco was not smart , he had to vote me to win but now he left alone and loses because no one shoot him and now we left 3 and we will vote for someone and Draco trusts me , we will eliminate Mark , It was very easy game and enemies aren't serious professional players .

Right after he says this , Draco takes gun and aim to Connor's head with touching gun to his forehead and Connor stuns and stops thinking . He shoot Connor then looks at the camera and smiles . Samuel with other main managers were watching the camera and Samuel becomes angry then shoots TV and leaves room . Draco wins the game and Mark also gets eliminated because he had to get shoot at night but he stayed alive . They take Draco to outside and Victor was spectating in another room alone and he was happy by Draco's win . Victor leaves room and goes to meet Draco , they were happy to see each other again . Samuel comes back to room again and shouted:

-One is smart and one is strong , they can't just win the game ! Tell them to fight each other to get the potion or they won't get potion .

-As you say , General Samuel .

Victor: -You almost lost the game and I thought it will be over ! Thank God you survived the game .

Draco: -Uhhh , me too . These deadly games are over , now we will take potion and look for someone else to join us .

Worker came and said:

Worker: -You both take rest and there's something left to do .

Victor: -We won these games , where's the potion ? We don't have much time we need to go .

They sit and Draco said:

Draco: -What it can be ? Maybe they're trying to kill us ? Or something worse ?

Victor: -I have no idea but I'm scaring that if they want us to fight each other .

Draco: -Then It's easy choice , you can beat me easily , why are you scaring ?

Victor: -No , I can't kill you , You're my best friend here and helping me .

Draco: -Thanks...

After 10 minutes , Worker command them to follow him and he took them to the place where first game was played .

Worker: -Now you two have to fight each other and winner gets the potion .

Victor: -That's not fair ! There's said if you win 4 games then you will get the potion .

Worker: -Only 1 person will get potion because there's only 1 potion for winner , not as potions as winners .

Victor and Draco looks to each other and Draco in a low voice:

Draco: -We have to accept it , there's nothing else we can do . You will hit me very hard don't worry I trained a lot and I won't die , I act like I died and after you get potion , you will take me and fly

Victor: -This is very risky , what if I kill you ? And I never flied before I don't know it will work or no .

Draco: -Don't worry , we can do it . You have power of light and you can use it to fly as well .

They accepted and started to fight . Victor started to hit but Draco didn't reply , he was just standing for his friend and getting hits . After some time of fighting , Draco lies to the ground and acts like died .

Victor said that Draco died and asked for potion . Worker came closer and said:

Worker: -He's still alive , look he's moving slowly and his heart is still beating .

Victor hit worker with light strike then take Draco and flied to sky . He lands to the place where he hided the map and things he had and looks at the map . He had low time to think , he take Draco and map with

other things then flied to futuristic laboratory with incredibly speed . He arrived in around 5-10 minutes and entered big laboratory .

Draco: -Why you did this ?

Victor: -I need my friend , not the potion . You are important for me than some potions . Sorry if I hit you hard .

Victor searched if someone is here and found one scientist .

Victor: -Hey , my name is Victor . My friend need help very quick , can you help him ?

Scientist: -Sorry , but this is the place where everything is by technology and this cost high money .

Victor takes all money villagers gave him and asked:

Victor: -Is this enough ? Please my friend is about to die , I will do anything for you .

Scientist: -Fine , place him here and you don't have to worry about him . After he gets healthy , he will leave this laboratory by his legs .

Scientist called other scientists to help and Victor leaved laboratory . Samuel went to Darius's laboratory and told everything what happen . This didn't make Darius happy , he was angry and knew Victor isn't just enemy , he's serious enemy and wanted to talk with him . He send 2 cyborgs to CyberHive Towers to bring Victor . One of them was Ragnar and they started their way in Tech plane , It didn't took long and when they arrived to Futuristic laboratory , They saw Victor sitting outside laboratory and thinking something . They come close to him , Victor saw this and he was about to use his power but Ragnar stopped him:

Ragnar: -Stop ! We're not here to fight . Our boss Darius called you and he wants to talk with you , he also said he have offer for you .

Victor: -What's that offer ?

Ragnar: -I can't tell what is it , you will talk about this with Darius .

Victor: -Okay .

They sat to tech plane and moved to Darius's laboratory . When they arrived , Darius was waiting outside and met Victor . He called Victor to special technology room to talk alone . They sat down and Darius started to say:

-I heard that you're Victor and you have power of light , right ?

-Yes , you heard right .

-You're strong , but why you are using your power against my cyborgs ?

-They're destroying cities , villages and neighborhoods , should I just spectate everything ? How people die , how they lose their siblings , children or parents ? Maybe You are stronger than me but you're using your power in bad side .

-I'm just doing what I have to do . You're also cursed and if you want to revive someone , you have to kill all other cursed people . I am using teenagers to make cyborgs and with these cyborgs I am killing cursed people . What's your plan ?! Do you want to save them first , then kill ? If you really want to revive someone , then let's be 1 team and destroy all cursed combining our power . After we kill all cursed and left only us , I will find the way how we both can use Blue Morpho .

-No , your cyborgs killed my best friend's mother in front of my eyes and kidnapped him . I won't be in 1 team with heartless evil , everyone's life is just toy for you and you use them to achieve your goal .

-No one born evil , It's just people make them like this . No one would never understand me .

-Tell me what happened ?

Darius took off his mask and started to talk:

-Everything started when I was young . My father left our family when I was 1 year old and my mom married to another person . I got young brother from my stepfather but I was the only black person in our family . Almost everyone in the city was white people but most of them were racist . When I was 9 and my brother was 6 , everyday I got bullied and because of my skin color, my brother also didn't had friends . I was quiet and chill kid but if bullies do something bad to my brother , I wasn't able to hold my anger and protected him in any situation . Time flied and getting bullied become just normal daily thing for me . Bullies said black people are evil , terrorist , murdered and bad then I got psychologic trauma that all black people are psychopaths . But one day when I was coming back from shop , 5-6 bullies with bats were coming to me . I never got hits from the bat before so I was scared but there was nowhere to run and nothing to do . They were hurting me so bad but suddenly one guy named Henry came and saved my life . He was very strong guy and he fought all bullies and beat them . I thanked him a lot and continued my way to my house . Next days I saw him reading book outside and sat next to him . I asked Why did he helped me and he said "You don't need a reason to help" . He was nice guy and he made me believe that nice people exist . Even if he's older than me , we became good friends and I didn't got bullied since I met him . My life started to be happy but after few months , we were walking together but in our way we saw bandits with masks and they asked for our money . I said I don't have money then they grabbed me and searched my pockets but Henry told them to stop . They let me go and came closer to Henry . Henry kicked 1 bandit to his face and others also started to fight . They were fighting but I got scared and moved further away but 1 bandit shot Henry and I was stunned . I was so scared , don't know what to do... Run ? Cry ? Help ? Revenge ? I was standing in 1 place and didn't even breathe . I was just looking to Henry's eyes and watching how he's dying . Then bandit look at me and I ran so fast that I didn't even know how I came to my house . Then I remember about Blue Morpho and it was next to my house . I had nothing in my mind except for Blue Morpho . I became cursed and in the way to home , I had very strong headache that I fell of on the ground with my face to the sky and time flied in my eyes . Everything was fast , Night and morning switching in seconds and people walk to fast . My eyes closed and when I open my eyes , everything become normal again then I stand up and look around but everything was different . I was moving to my house and my body was became bigger and I felt myself smarter and older . I saw my house and knocked the door , my brother open door but he was like 26 years old . We just looked each other's eyes and we both stunned . His face was like shocked and I said "Hi" . He said I disappear from house 20 years ago and asked where I was . I asked to enter the house and then we talk . I explained what happen to me and he was shocked . I told what happened to us when he was 6 and we walk outside , I show where Henry died . I felt something on me and my hand

slowly become dark black . I felt very powerful dark magic in my hands and somehow I knew what are my powers are without using them . I said this to my brother and I said that I want to build laboratory to get my own army , kill all cursed and revive Henry . I asked him to help me but he said It's stupid idea to sacrifice others for your goal , he said he won't help me . We said goodbye then I leave and started to look for a place to build my own laboratory . This place was perfect and it took me 2 days to build whole laboratory with my power and now you see I have everything I want to kill all cursed .

-Your brother was right , sacrificing thousands of people for 1 person is stupid idea .

-Maybe It's stupid idea but he's worth it for me . No one showed me kindness like him , no one told me good things like him , no one paid attention to me like him .

-Anyway no matter how much cyborgs you have , they all are weak .

-I haven't used my strongest cyborgs yet , but I can show you one .

-Show me your "strong" cyborg .

They stand up and Darius and Victor moved to another room with a lot of cyborgs turned off then Darius showed one cyborg in his hands and said:

-I warn you , remember this face . You ignored my cyborgs and this is real cyborg I've made . If I turn this on , this will be the last thing you see in your life . I called you here maybe we can team up and we both get what we wanted but you rejected , now you can go .

-Don't overestimate yourself . Now I'll go , but I will kill your strongest cyborgs in front of your eyes .

-We will see this .

Victor left laboratory and Darius called Samuel .

-He rejected my offer , now kill him when he's alone . You can't just kill him , you have to act like friend and then kill him .

-As you wish .

Samuel left laboratory and he also sat to tech plane with normal cyborg costume to take away Victor . They all were going to Cyberhive towers but Victor said take him to Ancient jungle . They landed on "Big Forest" and after Victor left tech plane , Samuel also sneaky left then cyborgs fled away . Victor started his was to find Beatrix and Stephen . Samuel changed his body to normal person and ran to Victor:

-Hey Victor , I know you . I remember how you defended my region , how you used your power against cyborgs . I want to thank you again and can I be with you ? I'm so scared what if cyborgs come back and kill all of us ?

-Sorry , but I have very important things now and it is very dangerous to be with me . Right now , I came from Darius's laboratory and they are planning to kill me .

-Anyway this place is also dangerous , cyborgs can attack any time . I want to be with you and even if I die , I will die in a fight .

Victor is think for a seconds and said:

-I don't know this is dangerous path .

-I'm ready .

Victor started to move and Samuel also followed him and asked:

-Where are we going ?

-I have to meet my 1 friend .

-What's his name and why ?

-His name is Stephen but why you're interested about this ?

-I'm just asking to know where I am going and why .

-I have to meet my friend Stephen because we didn't met for 2-3 days and I have some important things to tell .

-If it's not secret , then what is it ?

-You're asking to much questions .

-Okay this is my last question please answer if it's not secret .

-But it's secret , I can't tell you .

-Okay , at least do you know how long it take us to go there ?

-I can fly but it's very dangerous right now so it takes hours of walking .

-It's not bad , we can talk and know more about each other . Why did you go to talk with Darius ?

-He called me for offer , he wanted to team up with me to kill all cursed people but I rejected . By the way , what's your name ?

-My name is Samuel . I think you are the first person who got offer from Great Darius , maybe your powers are different or he got scared from you and wanted to be a team ?

-I don't think he got scared but he wanted to use me then kill me . After I rejected , now he's trying to kill me .

-I saw you had friend when defending our region , are we going to him ? Is Stephen his name ?

-He's Draco , not Stephen . I met him when I enter blue dimension .

-Why you become cursed ? Who did you lose ?

-I lost my best friend , his name was Ragnar . We were best friends since we were young and cyborgs kidnapped him .

-Did you know that your friend can be alive ? Some cyborgs can return their memory if they see or hear something they knew very good or they're interested in .

-I also thought maybe my friend can remember his memory but it has low chance and I even don't know he's still alive or died .

-Is Draco also cursed or he's just strong ?

-No , he's not cursed but he's very strong , fast and intelligent . He tried to become Shaolin Monk and trained for 7 years but failed , Now he's helping me .

-By the way , where's he now ?

-It's long story to tell .

-I'm hearing .

-It's not important now , We have to move faster .

They enter big forest and there was nothing but tall trees . Victor looked around and check if someone watching them then he take Samuel and flied . Samuel wanted to kill him while flying but Victor was flying fast and air blocked his moves . Victor slows down when they were close to exit forest , then he landed on safe place . There was left only 2-3 minute way on foot because Stephen's house was close to Big forest . They moved to house and Victor knocked the door , Stephen opened and Victor:

-Hello Stephen what's up ?

-Hello Victor I'm good how are you ?

-I'm also not bad , can I come in ?

-Yeah sure .

Victor entered and Samuel also asked:

-Hello can I come in ?

-Of course .

Everyone sat down to the table and Stephen asked:

-Did you won the game ?

-Yes I won the games .

-Did you get potion and gave it to Samuel ? What power it was ?

-They didn't gave me potion , they break the rules and told us to fight 1 vs 1 . We fought but I didn't killed him . They forced us to fight until 1 player dies but I didn't killed my opponent , I take him and flied. Now he's healing then I came here to met you and Beatrix .

-Who is this guy ?

-Oh I met him while coming here and he saw me when I defended their region Then he wanted to come with me .

They heard shooting sounds outside and Victor checked what's happening from the window . He saw cyborgs attacking them and said:

-HEY , guys look cyborgs attacking !

They both stand up and started to panic . They had no idea what to do and Victor open the door then he started to fight cyborgs . Samuel and Stephen has no idea and Samuel planned to kill Stephen as it was the perfect moment for that . He took the knife Darius gave then stuck the knife and Stephen died instantly . Victor fight all the cyborgs and when he come back , he saw dead Stephen and Samuel that acting like injured . Victor was stunned and asked in loud voice:

-What happen ?

-Right after when you leave , 1 cyborg enter house and attacked us . We also fight but cyborg shot your friend and this also damaged me . He wanted to kill me but he saw or heard something and then ran .

Victor sat down next to Stephen's corpse and checked his heart but unfortunately his heart wasn't beating . He had no idea what to do and take Stephen and Samuel to nearest laboratory . They said Stephen died already by strong gun and they can't help him but Samuel's injury wasn't that bad so they can help Samuel . Victor was about to leave but Samuel stopped him and said:

-Victor stop , I will go with you my injury isn't that bad and I can move .

-No , you better stay here and I get money to give scientist . Don't go anywhere until you'll be health again .

-I can walk myself .

-It's very dangerous for your legs and hands .

-I will go whatever you say , I'm fine .

-Fine .

They leaved laboratory and Victor had no idea what to do and where to go . Then he remembers Beatrix and plans to go back to Trap temple . Distance wasn't that far so Victor doesn't have to fly . They didn't say anything to each other but each time Victor looks at Samuel , Samuel also was looking at him . Samuel didn't even asked where are they going . Victor felt something strange in Samuel then asked:

-Are you okay?

Samuel just smiled and didn't answered . Victor continued moving then suddenly Samuel took his knife that Darius gave and hit Victor , but he knew about this so electric shield around Victor's body appear and Samuel gets knocked out right after hits . Victor look back and fought Samuel , Victor beat easily and he checked if Samuel died or not . He was standing in 1 place and thinking something but suddenly Samuel's body disappears in front of Victor's eyes . Samuel was looking at Victor and smiled and leave because It wasn't real Samuel that Victor fought , It was Samuel's clone . Victor was shocked and didn't understand why body just disappear , then he moved faster to find Beatrix . He arrived to place that they met last time and looked around , he didn't found Beatrix . He started to move to Night Castle thinking maybe she is here and worried if she's dead or kidnapped . When he was about to fly , Beatrix saw him and ran to him . Victor said:

-Nice to see you again , Beatrix .

-I'm also happy to see you , where were you all the time ? Games already ended few days ago . I thought you were died and scared a lot . I wanted to go back to Night Castle but something inside me stopped and told me to stay 1 more day , your friend Draco also disappear since you joined games .

-It's long story and now it's not the time to tell this , now we have to find a place to stay for night .

-I know 1 person , his name is Arthur and he helped me when you were in the games and he gave me room in his house to stay and sleep . He's a nice guy .

-Okay , tomorrow morning we will talk .

Beatrix showed the way and they started to move , they arrived and Beatrix knocked the door . Arthur opened and Beatrix said:

-Hello , sorry to bother you but can we stay here for only 1 more night ? I promise this is the last time .

-Oh of course , You're always welcome . Hello , who are you ?

Victor:

-Hello , my name is Victor . I'm Beatrix's best friend and we were looking for a place to stay for night , she told me that you're nice guy and we can stay here for 1 night .

-Sure come in .

They enter the house and Arthur show them room to sleep . They thanked him and lied down to bed . Next day morning they thanked him again and leave the house . In this time Samuel went to Darius's laboratory and asked:

-Darius , I have very nice plan but for that , I need cyborg army .

-What's that plan?

-(Tells the plan)

-Hmm , nice plan but what if it won't work .

-It will work 100% sure .

-We'll see .

Darius commanded army cyborgs to fight for Samuel and Samuel leaved laboratory then fled with all cyborgs . Ragnar also was with Samuel in the tech plane and he was feeling himself very bad . He was watching nightmares everyday and each day he was dying in his dreams . By the way , Victor was outside with Beatrix next to Arthur's door . Beatrix asked:

-Maybe you can tell now what happen ?

-Yeah , when I enter the game Draco also was secretly registered and entered . We played all the games and we won among 200 players , but they break the rules and forced us to fight 1 vs 1 to get the potion . Draco told me to hit him then he will act like he's dead but this didn't work , then I killed worker and first

flied with Draco to get map and other stuff then flied to CyberHive Towers for laboratory . I begged them to help Draco and they accepted , I gave them money that I got from defending your region . I left laboratory and 2 cyborgs came next to me and said that Darius have offer for me . I went to Darius's laboratory then we talk , he told me his past and he offered me to kill all cursed together and get Blue Morpho but I rejected his offer . After we finished talking , cyborgs took me to Big Forest , there is I met Samuel . I thought he was a nice guy but he killed Stephen and tried to kill me too , then light skin blocked my body from his knife and knocked him out . I don't know he is dead or not because after some minutes his body just disappear in front of my eyes and I came here .

-Oh , I missed a lot of things . I have no one except for you , everything and everyone I trust is only you . Don't leave me alone again I was scared .

-Don't worry this won't happen again . I'm waiting for Draco and I'm free until he leaves the laboratory . If you have to met someone or you have to do something then I can help you .

-I don't have anything to do , I'm just scared of being alone .

-Hmm .

This time they heard people screaming and running with panic . Victor fast grabbed Beatrix's hand to not lose and look around . He moved to place where everyone is coming from and saw big army of cyborgs attacking them . He knew It was because Darius trying to kill him . His vision become darker and he felt fear . He ran to Arthur's house and inside he saw Arthur panicking with his wife and Victor told them to hide in the basement until he fought all the cyborgs then he said he will get them . He went outside to fight and saw Samuel still alive . He surprised but not much , he wanted to kill Samuel and shoot light from far but it didn't hit Samuel . Then Samuel jumped and get close to Victor , when he was about to attack with knife he got knocked out like before . He stand up and become invisible in front of Victor's eyes to scare him and Victor had no idea what to do . Victor send high light power to sky and lighting hit him , then around him big light shield spawned that all the enemy around 5 meters becomes instantly cooked . Samuel felt very high level of electric power in his body and he was unable to move any part of his body . Victor came close and his shield's energy continuously hit Samuel and burned him . Right after that he heard Beatrix screaming an ran to house . He saw 2 cyborgs trying open basement door but failing and Victor knocked them out . Then he wanted to take them from basement and hide somewhere else because door was almost broken and cyborgs can easily enter so he open the door but The ceiling fell to the ground and it blocked way out . There was small hole to get them and They had low time so he didn't even think and told them to help each other climb and he will get them . First they helped Beatrix to climb up , then he saw cyborgs are searching something and told to do faster . Then Arthur's wife climbed but when It was Arthur's turn , there was no one left inside basement to help him so he was doing it slowly . Around 10 cyborgs break inside house and Victor instantly activated shield to himself and two women . He knew shield won't last for long and fight cyborgs . He was able to make cyborgs leave the house but outside there was a lot of cyborgs to fight . He was forced to go outside then fight cyborgs and did it , Beatrix followed him and stood behind him . Ragnar also was one of the cyborgs that fight and he got seriously injury . He was moving barely and retreat to further away from fight . Victor saw Samuel's body still here and make sure that he's dead . Cyborgs started to retreat and Victor didn't let them to go , he destroyed their tech planes and killed many of them but some of them still managed to hide . Then he remember Arthur was still inside and went to check but he didn't saw Arthur anywhere but there was his wife's dead body on the floor . Beatrix also come here and they were

shocked , they had no idea where did Arthur go and how his wife died . They checked other rooms too but found nothing . This time Ragnar was slowly moving and pretending to be a human to others won't attack . He was moving next to houses and he heard someone reading Surah Al-Fatiha slowly in beautiful voice . He felt like he heard this before and waited to finish reading then asked:

-What did you read ?

-It was Surah Al-Fatiha .

-What is that ?

-Qur'an .

-...

He continued his move and met few other cyborgs , they together connected to Darius and Darius sent them tech plane to back . When they back , Ragnar had to sleep in a special place to heal and he did it . This time in his nightmare , he was in his house and he wanted to enter the bathroom but door was locked . He asked:

-Mom are you here?

-No , I'm in kitchen .

He's in his mind:

-Oh , then It's my dad here . I'll wait .

But suddenly another noise from kitchen:

-No , I'm with your mother .

He stunned in this moment and realized that he's in his dream . He know it because his dad hear him when he didn't talk , there was no one else living with them (he was the only child) . He was scared and think in his mind:

-Again nightmare , I'm scared , I'm weak , It will happen forever , this will never end , Nowhere to run .

Then he accidently punch himself and shouted "shut up" and felt to ground . He woke up and started to remember his memories , he had to leave this place and go somewhere . He got keys for tech plane and immediately left when no one was watching . He had no idea where to go and he went to near place to abandoned castle and sat here . This time Victor and Beatrix were sitting in Arthur's house waiting him to come , they waited him until the night but he was just gone . Until night , they talk and learn more about each other . Victor said his favorite number is 3 and Beatrix's favorite number was 6 . Night came and they had nothing to do except for sleeping . They searched everywhere but didn't even found footprints . They spend their night again in Arthur's house and Victor slept in Arthur's bed . Ragnar sleep very late because he was remembering his memories and regretted what he did . Morning , Victor and Beatrix woke up and there was nothing to eat . They went to restaurant and order food and water . Waiter bring food but he forgot about water . Victor:

-Oh , I think they forgot to bring water .

-Don't worry I'll get it .

She stand up and went to ask for water , they apologized and gave her 2 bottles of water . When she leaved , cyborgs secretly enter restaurant and they covered his mouth . His all moves was blocked and he wasn't able to do anything . They get Victor to tech plane and flied to Abandoned Castle . When Beatrix come back with waters , he was already gone and she searched him . She looked around but didn't find him then called his name . Cyborgs again came and did same thing to Beatrix too but Victor and Beatrix were in different tech planes . When tech plane with Victor landed , Ragnar woke up from his dreams . Ragnar again saw nightmare but this was the last time . This time he saw 3-4 monsters running to him but instead of running , he smiled and said "It's over" . He fight monsters and beat . Ragnar stood up and hided behind tree then he saw Victor and ran to save him . He also looked like cyborg so he get close to other cyborgs and immediately shot them all . It was easy because no one expected this from him . He untied Victor's hand and Victor asked :

-Who are you ? Why did you killed other cyborgs ?

He took off his mask and said:

-Remember me ?

-Oh Ragnar! I knew you will get your memory back . How did you know they will bring me to here ?

-Actually I didn't know , but while I was sleeping I heard tech plane landing sound and woke up . Darius killed my mother and I know where is he right now . I will kill him right now!

-Okay I'll help you where's him ?

-I don't know how to tell you , do you have map ?

He showed map and said:

-Yeah here it is .

-Look , this "?" is where Darius's laboratory located . Darius also here and now we will go there . I know how to use tech plane , come in .

They sat to tech plane and flied to "?" island . This time tech plane with Beatrix also landed and they take her inside castle . Inside castle there was big prison and they locked her . One unknown person come and said:

-Your friend was able to escape , but don't worry he will come for you and that's what we want .

-Who are you ? Why are you doing this to us ?

He didn't replied and gone . Beatrix was hoping Victor will come and save her but this time Victor was flying to ? island with Ragnar and they were almost here . Ragnar pointed laboratory with his finger and they landed next to it . Cyborgs saw this and told this to Darius , he went outside and saw Victor and Ragnar standing . He came closer and asked:

-What are you doing here ?

Ragnar:

-Remember how you killed my mother ? Now you will feel at least 200x more pain than death .

-I didn't killed your mother and you can't even come close to kill me .

-We will see about that .

Ragnar immediately shoot him and Darius said:

-Hahaha , you're using my own weapon against me ? You think you can kill me with that .

Victor:

-You and me , we both got our powers by Blue Morpho but I can defeat you .

-But your power isn't enough to build whole laboratory and make cyborgs .

-You can't even imagine my power !

Victor send lighting to Darius and activated ultra lighting shield , sky become blue . Darius smiled and used his dark power , wings of full darkness appear and both Victor and Ragnar shocked . Sky turned into black from blue , Victor to Ragnar:

-Are you sure we can kill him ?

-No...

Darius attacked them but Victor's shield blocked his attacks . Ragnar tried all of his weapons and guns to shot him but it was useless . Victor tried high energy light to shot but Darius didn't get knocked out like other but get damaged . He used his dark power to destroy Victor's shield Victor used all his powers for shield and It was too hard to hold Darius's power . He struggled and Darius broke Victor's shield . Darius was about to hit but Draco come from nowhere and kicked Darius's hand . Victor shocked:

-Draco!

-Look cyborg next to you .

Draco was about to shot , Victor:

-Don't , It's not cyborg . He's my friend Ragnar .

-Ragnar ? Oh .

Because Draco was in futuristic laboratory , he got technology updates and got supreme weapons . Draco used his high technology weapons and tied his all moves . Darius escaped from Draco's weapon and they fight long and at the end , Darius felt to the ground and he knew he was about to die . Ragnar aim laser gun to Darius's head and Darius said his last words:

-I didn't even knew you had a mother...

Ragnar shot him immediately and said:

-No more lies , revenge taken , but who will get my mother back... ?

They went to “Hero’s Journey” to see how much cursed left and when they check , There was only Victor in butterfly’s wing . It means Victor can revive 1 very close person for him . He was shocked about this and said:

-I didn’t except only I left , but I don’t have anyone to revive . I wanted to revive you but you are alive .

-Please revive my mother , I’ll do anything for you .

-Okay .

He said Ragnar’s mother’s name but nothing happen . They checked outside if something happen but not . He remember he can revive only very close people for him like family member or friend . He said:

-I can revive only my friend or my family member like close people , I can’t revive her . You touch butterfly and become cursed , I’ll kill myself before others will notice this and become cursed .

-No , you don’t have to do this . You’re my best friend , we grow up together .

-No , I don’t have anyone to revive but you have 1 . You have to do this .

-Thank you...

Ragnar stayed here to let no one come inside and become cursed . Draco went to his house and Victor went to Arthur’s house to suicide himself . They said goodbye like for the last time and started their way. Draco went to his house but his mother wasn’t here , then he went to his teacher and asked about his mother . His master:

-Your mother died 3 days ago from Cyborgs attack .

-Died ? Cyborgs ? ...

-Where were you all this time ? Why you didn’t protect your mother ?

-I was... I’m sorry .

He walked away slowly with sad face that almost cried . This time Victor hanged rope in Arthur’s house and he was ready to hang himself . He hanged and kicked the chair , after some time when he was about to die , someone shot arrow and break rope . Victor fell down to the ground and he was in bad form so he wasn’t able to stand . Same person that talked to Beatrix said:

-It’s early for you to die .
